### **COURSE DESCRIPTION**

This course provides students with an opportunity to apply knowledge and skills from theory courses to working with individuals and families in multi-level or complex care settings. A portion of this clinical placement will be spent working with individuals experiencing cognitive challenges. Opportunity will be provided for students to gain expertise and confidence with the role of the HCA (Nursing Home Attendant) within a continuing care facility.

### **COURSE REQUIREMENTS**

Prerequisite(s): None

### **EQUIVALENCY OR TRANSFERABILITY**

Transfers not formalized through BCCAT. Receiving institutions determine course transferability. Find further information at: <https://www.yukonu.ca/admissions/transfer-credit>

### **LEARNING OUTCOMES**

Upon successful completion of the course, students will be able to:

1. provide person-centered care and assistance that recognizes and respects the uniqueness of each individual resident or client
2. use an informed problem-solving approach to provide care and assistance that promotes the physical, psychological, social, cognitive and spiritual well-being of clients and families
3. provide care and assistance for clients experiencing complex health challenges
4. provide care and assistance for clients experiencing cognitive and/or mental health challenges
5. interact with other members of the health care team in ways that contribute to effective working relationships and achievement of goals

6. communicate clearly, accurately and in sensitive ways with clients and families within a variety of contexts
7. provide personal care and assistance in a safe, competent and organized manner
8. recognize and respond to their own self-development, learning and health enhancement needs
9. perform the care-giver role in a reflective, responsible, accountable and professional manner.

## COURSE FORMAT

This course takes place in a work setting and involves the application of theory to practice. Practicum will occur in selected intermediate and extended care or similar residential/community agencies. These work experiences will be variable in length and time and occur on various days during the week. **Each student must complete 210 hours (minimum) of placement.** Clinical placement time may vary and include learning in lab/simulation settings when appropriate. NOTE: This course runs over both the fall and winter semester.

### Delivery format

This course will be delivered through face-to-face in appropriate practicum facilities in the community (Whitehorse) corresponding to regular day shift hours (mostly) of said facility. Students will be required to adhere to public health guidelines as outlined by the facility they do practicum shifts in. More information about the specific precautions will take place during the HCA orientation in August.

It is the student's responsibility to seek these accommodations by contacting the Learning Assistance Centre (LAC): [LearningAssistanceCentre@yukonu.ca](mailto:LearningAssistanceCentre@yukonu.ca).

## **TOPIC OUTLINE**

### **Application of Skills learned in HCA labs and theory classes**

#### **Indigenous Knowledge/Perspectives**

- Prior to practicum HCA students attend a full day 'Residential Schools and Caregiver' Workshop. This is focused on what students should know (historically and in current context) so they consider how they might approach care at the bedside in a more culturally safe manner
- Practicum instructors connect to First Nations Liaison staff at LTC facilities speak to HCA students during their practicum
- When possible, the Healing room (in WBP, TC facilities) is toured and staff explain role in healing and supporting residents/families
