

## ACKNOWLEDGEMENT

### Together, we thrive on the Traditional Territories of 14 Yukon First Nations.

Our campuses are located on the ancestral lands of the Yukon First Nations. We honour, respect and integrate the diverse cultures, languages, Traditional Knowledge and worldviews of Yukon First Nations into the fabric of life at YukonU.

For millennia, these lands have been stewarded, nurtured and cared for by the Yukon First Nations, whose enduring relationship with the land continues to shape and influence both traditional and contemporary ways of being. This connection is not just historical; it is a living, evolving aspect of the present day, integral to the culture and identity of the First Nations. While it is crucial to acknowledge and respect the land and its original stewards, it's equally vital to engage directly with the First Nations themselves.

At YukonU, we are committed to fostering these connections through a range of resources and initiatives that support collaboration, education and the ongoing sharing of knowledge with Yukon First Nations.

**We provide a place for every person, every path and every bit of potential. Start your journey at YukonU today.**

## ABOUT US

# Yukon University

2024–25 stats:

**710**

full-time  
equivalent  
students

**20%**

of student are  
Indigenous

**24**

median  
student age

Rooted in research and education that is deeply connected to and influenced by the North, we drive innovation, sustainability and creativity in the Yukon by empowering a thriving and vibrant community for generations to come.

We recognize the importance of place-based knowledge. Our programs reflect the cultural, environmental and economic characteristics that define the North.

We also hold a distinct responsibility to respect, honour and integrate the knowledge, worldviews, cultural and traditional practices, and educational priorities of Yukon First Nations into every aspect of our institution—from educational programming and research to governance, policies and facilities.

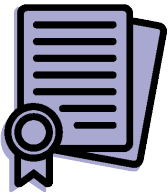

We are proud to serve as a hub of knowledge, welcoming students from across Canada and around the world to explore the rich opportunities of Canada's North. By studying with us, you will gain a deeper understanding of the Yukon, its people and its global significance, while also contributing to the ongoing development of the region. We're not just preparing students for their future—we're shaping the future of the North together.

**Build the future together with us at YukonU.**

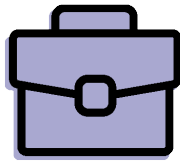

## CAMPUSES AND COMMUNITY EDUCATION

We are committed to expanding access to post-secondary education through our network of 13 campuses across the territory. No matter where you live, our community learning hubs offer an extensive range of academic and vocational programs to meet your learning goals.

Each campus offers a variety of programming:

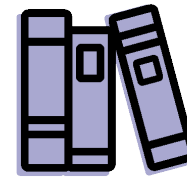

**Access programs** build foundational skills and support your academic success. Whether you're transitioning from high school or returning to education after time away, we help you get started with confidence.

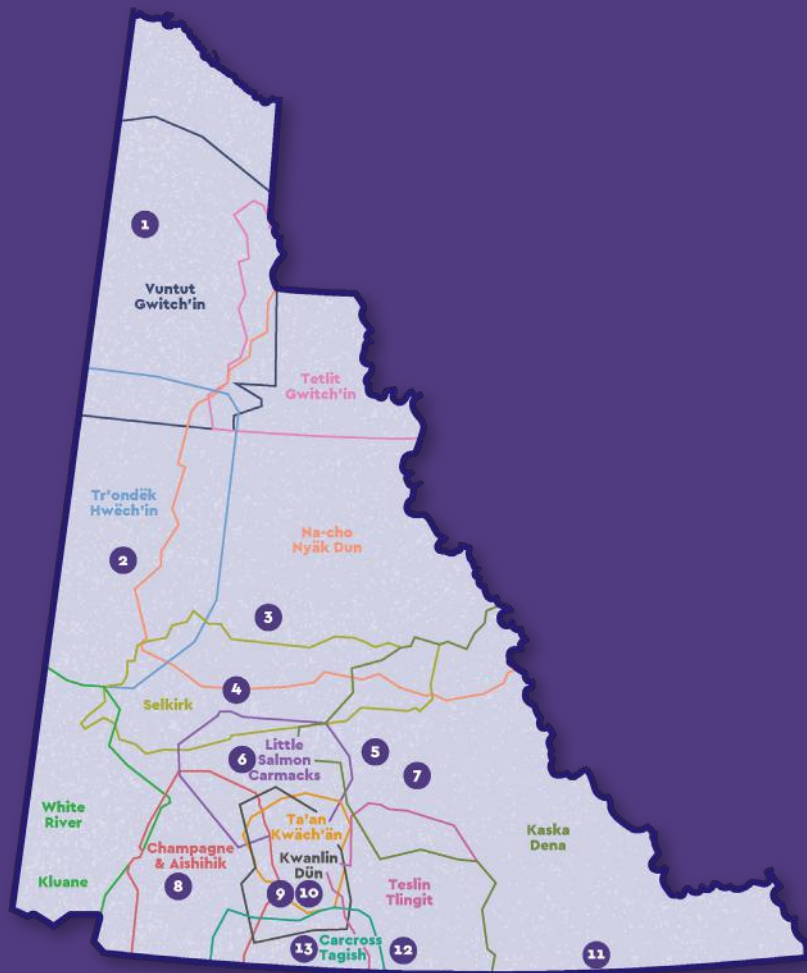

**Career and job readiness programs** equip you with practical, in-demand skills and knowledge. Continuing Studies courses are non-credit courses that let you explore new interests and enhance professional qualifications.

**Certificate, diploma and degree programs** are your pathway to academic and professional achievement, opening doors to a wide variety of career opportunities.

**Comprehensive library services** are available to support your research, academic excellence and lifelong learning.

- 1 **Alice Frost Community Campus, YukonU Old Crow**  
Traditional Territory of the Vuntut Gwitch'in
- 2 **Tr'odëk Hätr'unohtän Zho, YukonU Dawson City**

PROGRAMS OVERVIEW

At YukonU, you can:

- Earn a degree without leaving the Yukon. Our degrees offer you a uniquely northern experience where theoretical knowledge is combined with hands-on, experiential learning.
- Build a solid foundation for further education and employment with our certificate, diploma or degree programs.
- Study for an in-demand career. Our programs are responsive to the needs of communities and industries in the North.
- Take university-level courses through open studies—without program admission—to help achieve your academic, professional and personal goals.
- Get a great foundation at YukonU and transfer credits from many courses to post-secondary institutions across Canada and Alaska.
- Earn university credits that will count toward your high school graduation with our dual credit options.

## School of Academic and Skill Development

Take your first step toward success. Our School of Academic and Skill Development empowers your future with a solid foundation that opens doors to countless career and educational opportunities. Gain the essential skills and knowledge to excel in the workforce or continue your education.

### University Access Pathways

Build your academic foundation and meet admissions requirements for programs at Yukon University and other top academic institutions. Whether you're aiming for a certificate, diploma or degree, University Access Pathways equip you with the critical skills and knowledge to confidently pursue your higher education goals and set yourself up for future success.

### Yukon First Nations Arts

Develop your artistic skills in contemporary and traditional Indigenous visual arts and crafts. You'll progress through art modules in a sequential manner to build on and further your artistic abilities. This program also includes University Access Pathways courses in English and math.

### Did you know?

High school students can take up to two university courses per year. Read more about dual credits. [Page 31 →](#)

"What I enjoy most about this program is the flexibility to choose the courses that interest me. This has allowed me to explore different subjects and gain a clearer idea of what I'd like to study for my bachelor's degree. The program also offers a great opportunity to expand and strengthen my knowledge. The instructors are excellent, and my favourite courses so far have been Introduction to Psychology and Human Physiology. As a result, I'm eager to continue my studies in a field related to health care."

↓ Ximena Valencia, student, Liberal Arts diploma

# School of Social Sciences and Humanities

Learn to think critically and creatively—and build a strong foundation for your future. With studies in the arts and sciences, our Social Sciences and Humanities programs and courses help you understand and connect with your community, and the world.

## General Studies C Di

If you want to explore new topics and build new skills but don't plan to pursue a university degree, General Studies is a flexible opportunity to shape your studies. Take courses across the institution, including introductory and applied learning—all within a northern academic context. Combine general knowledge with practical, occupational or pre-professional learning.

## Liberal Arts C Di

Develop strong critical thinking, research and communication skills through broad-based study in the social sciences and humanities. Our Liberal Arts programs reflect the belief that degree-bound students benefit from a foundation in these skills, which support career exploration, life-long learning, or further university study with courses designed to transfer into degree programs.

## Northern Outdoor and Environmental Studies Di

Explore contemporary environmental issues and human-environment relationships—with particular emphasis on northern systems—in this structured, yet flexible, interdisciplinary program. Engage with core and emergent themes and build the knowledge and skills you need for academic and professional success.

## Northern Studies Di

Deepen or formalize your knowledge of the North—its landscapes, peoples, stories and issues. With the freedom to choose courses from across our academic programs, you will develop or refine your interests, while building your capacity to engage in and contribute to important contemporary conversations in the North.

## School of Health, Education and Human Services

Provide vital care and services that foster healthy communities. Our School of Health, Education and Human Services programs blend knowledge and experiential practice to prepare you to support people throughout their lives.

### Early Learning <sup>Di</sup>

Help meet community-identified needs for the educational preparation of early childhood educators through our Early Learning program (formerly Early Learning and Child Care).

### Education <sup>De</sup>

Gain knowledge and skills to provide children with a cross-cultural and diverse education that meets the needs of all learners. Established in 1989, the Yukon Native Teacher Education Program (YNTEP) emerged from a shared vision for transformative change in Yukon schools—one voiced by First Nation chiefs and Elders, community members, educators and politicians who recognized the urgent need for Indigenous representation and cultural relevance in education. These degrees are offered in partnership with the University of Regina.

#### Yukon Native Teacher Education Program (YNTEP)

A four-year, 120-credit program leading to a Bachelor of Education.

#### Bachelor of Education After Degree (BEAD)

A two-year, 60-credit program leading to a Bachelor of Education.

### Did you know?

If you want to work in health care and are adept at working through administrative tasks, our new Medical Office Assistant certificate may be right for you. Page 16 →

### Health Care Assistant <sup>C</sup>

Develop the knowledge, skills and attitudes you need to function effectively as a front-line caregiver and respected member of a health care team in community or facility settings.

### Practical Nurse <sup>Di</sup>

If you have a desire to work in dynamic environments providing high-quality nursing care in hospitals, long term care facilities, community and other health care services, then consider a career as a practical nurse. This diploma is offered in partnership with Bow Valley College.

### Social Work <sup>De</sup>

Gain the knowledge, values and skills you need to practice social work in northern and remote communities. This program gives particular attention to the social needs, values and aspirations of Yukon First Nations. This degree is offered in partnership with the University of Regina.

"When I left Inuvik to come to Whitehorse for the YNTEP/BEAD program, I didn't fully realize how life-changing it would be. The program gave me the tools I needed to become a teacher, but it also gave me something even more important: a deeper connection to who I am and where I come from.

One of the most powerful parts of my experience was the culture camps—being out on the land, learning from Elders and knowledge holders, and connecting with other future Indigenous educators. It reminded me of the strength and beauty in our ways of knowing. It wasn't just about earning a degree. It was about reconnecting, healing and preparing to bring that strength back to our communities.

I plan to teach in the North and with that I carry those experiences with me every day. I'm proud to be back where I started, giving back to the youth and helping them see the value in their own stories too."

← Chris-lin Hvatum, student, BEAD

## Yukon School of Visual Arts

The Yukon School of Visual Arts (SOVA) offers a rigorous eight-month foundation year program in the sub-arctic community of Dawson City, situated within the Traditional Territory of the Tr'ondëk Hwëch'in. Experience world-renowned faculty, small class sizes, custom-designed studio spaces and a vibrant arts community. SOVA is an incredibly unique option for your first year of art school or as a stand-alone program—a great place to start working as an artist!

### Foundation Year

Explore a wide range of materials and mediums in a school setting designed specifically for the YSOVA program—equivalent to the first year of a Bachelor of Fine Arts degree.

Designed and run by artists, for artists, foundation year disciplines include painting, drawing, printmaking, photography, video, sculpture, installation and performance. As a Foundation Year student, you will receive an individual studio space in a shared studio environment for the duration of the program.

Throughout the year there are scheduled field trips to important Tr'ondëk Hwëch'in heritage sites, visiting artist lectures and workshops, and many opportunities to get involved in the arts community of Dawson City.

"I am incredibly grateful for the life-changing opportunity to further explore my art practice at YSOVA. As a mature student and self-taught artist, I have gained valuable skills and discovered new mediums that I hope to incorporate into my work moving forward. The hands-on nature of the classes—spending time on the land, learning about Dawson's history and its connection to us as artists—combined with the experience of living within the community, has made my time at YSOVA truly fulfilling. It's more than just the school, it's the entire experience of creating art while being immersed in this unique place."

↑ Bronwyn Butterfield, graduate, YSOVA Foundation Year certificate

in the 2D studios at Yukon  
School of Visual Arts.

## School of Business and Leadership

Build, lead and support prosperous communities in the North and beyond. Experience on-the-land learning and classwork grounded in the rich history of the Yukon, guided by the spirit of decolonization and reconciliation.

### Aviation Management

Reach new heights in your aviation career, while building real-world business skills. The Aviation Management diploma leverages the subarctic climate, offering you diverse topography and varied flying experiences.

### Business Administration

Gain the values, knowledge and skills needed to collaborate with diverse stakeholders and address the unique challenges and opportunities of the North. This program nurtures business leaders to empower their communities and foster local prosperity.

### Multimedia Communication

Become your own storyteller in the dynamic fields of media, design and communication. In this program, you will strengthen your communication skills, while building a solid foundation in digital design within a northern context.

### Office Administration

#### Administrative Assistant, Financial Assistant, Medical Office Assistant

Launch your career in as little as nine months. With an emphasis on hands-on training, you'll be well-positioned to enter a variety of workplace settings and industries. Each 30-credit certificate provides specialized training in communications, office procedures, computer applications and accounting—with a specific focus on preparing you for employment in busy office environments.

### Public Administration

Prepare for leadership at all levels of government and non-profit organizations. You will come away with a strong interdisciplinary background in policy formation, implementation and administration. This degree is delivered by the University of Alaska Southeast.

"This program has given me amazing opportunities to learn and grow, and I've met incredible people who have supported me along the way. When I finish school, I hope to bring what I've learned back to my community, helping others grow and encouraging them to pursue their education."

↓ Unalena Shania Noksana, student, Business Administration degree

## School of Indigenous Governance

Affect the self-determination and governance landscape, in the North and beyond. Our programs give you the skills, experience and knowledge to make real change.

### First Nations Governance and Public Administration C

Build practical, relevant academic tools to effectively work in and manage First Nation governments. This unique, cutting-edge and culturally relevant certificate is transferable towards a degree in Indigenous Governance at YukonU.

### Indigenous Governance De

In the Bachelor of Arts in Indigenous Governance, you'll develop the values, knowledge and skills to build northern leadership capacity and work collaboratively within the unique governance landscape of the North.

"I'm from Champagne and Aishihik First Nations and I found the Indigenous Governance degree program to be a powerful space for reconnecting with the land, my community and myself. I especially appreciated how the program content was specific to the values of my people and the land I care about. It sparked a passion in me to strive for more—not just for myself, but for future generations."

Jamie Joe-Hudson, Zhūr Kàya Ma, graduate, Indigenous Governance degree

[YukonU.ca/indigenous-governance](https://YukonU.ca/indigenous-governance)

## School of Science

Immerse yourself in the world of science as you build a deep understanding of the complex systems that shape our planet. From earth and climate sciences to biology, chemistry and physics—explore the foundational disciplines that drive scientific discovery. Delve into environmental science, natural resource management or environmental monitoring to uncover how these fields intersect to solve real-world challenges.

### Biological Sciences

This diploma offers a strong two-year (60-credit) foundation towards a degree in biological sciences or health sciences at another institution. You can use this diploma to transfer into a health, medicine, veterinary, or other bachelor's degree in the biological sciences at most Canadian universities.

### Earth Sciences

Learn not only about the rocks and minerals that make up solid Earth but also about the interactions of these materials with other earth systems through time. Earth scientists play critical roles in understanding natural hazards, stewarding groundwater resources, and meeting our mineral and energy resource needs within the context of a rapidly changing environment. After completion of this two-year diploma, you can transfer credits into a degree program at other universities in Canada.

### Environmental Monitoring

This certificate prepares you for entry-level field work with First Nations or public governments, researchers and businesses working in the environmental services industry. If you are already employed, make environmental monitoring part of your professional development plan.

### Northern Environmental and Conservation Sciences

Dive into the structure and function of ecosystems as you explore how natural systems operate and interact. Learn to develop, evaluate and implement effective conservation and restoration strategies for both natural and managed ecosystems. The two-year diploma prepares you for entry-level work in the environmental sector. It can also be a pathway to the Bachelor of Science in Northern Environmental and Conservation Sciences degree program, offered at Yukon University in partnership with the University of Alberta. You may transfer up to two years of eligible credits from a recognized institution or related program to enter the degree program.

## Renewable Resources Management <sup>Di</sup>

Gain the knowledge and skills to manage land, water, forests and wildlife in the North, or prepare for further studies in renewable resource management. Renewable resources include living elements like plants and animals, and non-living elements like air and water. Managing these resources sustainably is crucial to meet present needs without compromising future generations.

## Science <sup>C</sup>

Start your education and career or just learn more about the natural world in areas such as environmental and life sciences, mathematics, engineering and physical sciences. You can use this certificate to transfer into the second year of a Bachelor of Science program in most Canadian universities.

"My program provided me with a deeper understanding of managing renewable resources and environmental science. My favourite part of the program has been the field courses and field trips, where we could apply the skills we learned in class. The instructors were highly knowledgeable in their fields, and I particularly valued the class discussions, especially when we explored case studies and real-life scenarios. Completing this program will open up more opportunities for me to work in the environmental field."

Emma Tom Tom, graduate, Renewable Resource Management diploma →

## School of Trades, Technology and Mining

Build your future with accredited pre-apprenticeship programs and apprenticeship training. Our flexible trades training is designed to prepare you for the jobs of today and tomorrow.

### Carpentry

Develop the practical and theoretical competencies you need to be an asset as a new carpentry apprentice in the construction industry. You will develop a strong foundation in safety practice, learn to work with a wide range of materials and tools, read blueprints, understand the importance of site preparation/building layout, and reinforce mathematical concepts essential to the trade.

### Culinary Arts

Prepare for an exciting career in culinary arts with this program designed to meet growing demand for skilled cooks in the hospitality industry. You'll receive practical hands-on training in our commercial kitchen, and have the opportunity to participate in catering, banquets and community events.

### Electrical

Launch into the electrical trade with this 18-week introductory pre-apprenticeship program. The first 10-week block gives you hands-on learning with tools and materials specific to residential and commercial electrical wiring. The final eight weeks dive into the foundational theoretical concepts used in the electrical field, preparing you to challenge the Level 1 electrical exam.

### Heavy Equipment Technician

Challenge the complexities of truck/transport, construction and mining equipment. This 18-week pre-apprenticeship program builds the technical and practical skills you need to safely enter the workplace as a Level 1 apprentice.

## Did you know?

We offer a wide selection of Red Seal certifications in partnership with the Government of Yukon.

Get started on your apprenticeship:  
[yukon.ca/en/apprenticeship](https://yukon.ca/en/apprenticeship)

## Welding

Learn a variety of fundamental welding principles and techniques in this 20-week pre-apprenticeship program, from basic welding tools and materials to safe shop practices. You'll be ready to start working in the exciting profession of welding and to challenge the Level 1 exam of the welding apprenticeship pathway.

"I've been a Trades instructor at Yukon University since 2022, after 10 years as a building contractor. The building trades are vital to our community and provide meaningful work to around 2,000 workers across the territory. I feel deeply honoured to be able to support students in their journeys to become better tradespeople and for the opportunity to help shape the future of construction in the Yukon."

Will Hegsted, instructor, Carpentry →

## RESEARCH

Enrich your education and start building your professional network through opportunities in research. Whether it's research in the lab, classroom or on the land, you'll build skills that will serve you well in your future career.

We facilitate:

- Paid casual work opportunities during the academic year supporting faculty and research professionals.
- Paid full-time student research positions over the summer.
- Research for academic credit, as part of a directed study.
- Research integrated directly into courses.

YukonU's Research Services Office can help you:

- Develop your research skills.
- Craft a compelling research question.
- Prepare applications for funding.
- Find a research partner or mentor.
- Understand how to effectively communicate research with industry, governments and First Nations communities.

"I recently completed an independent study where I tested an algorithm in Google Earth Engine, learning about optical remote sensing, land classification, and its applications in snow and water science. As someone with a background in health care and administration, switching careers was intimidating, but I found the research process at YukonU to be welcoming and accessible. I was supported by a patient team who took the time to ensure I understood each step. I feel incredibly lucky to have discovered this opportunity at YukonU."

## INDIGENOUS YUKONU

In our commitment to decolonizing education, we integrate Indigenous perspectives, knowledge and ways of knowing across our programming, research, services and student life.

### Yukon First Nations Core Competency requirement

Yukon is home to the Traditional Territories of 14 First Nations, each with its own unique heritage, culture, language and governance systems. Understanding the history, current realities—and the role we all play in implementing land claims and self-government agreements—is crucial. All academic programs at YukonU include at least one course designed to satisfy this core competency requirement. You may also choose to complete Yukon First Nations 101, offered through Continuing Studies.

### First Nations student services

The First Nations student navigator team and the First Nations student engagement coordinator are here to support First Nations, Métis and Inuit students throughout their educational journey.

First Nations student navigators work individually with Indigenous students to ensure they have access to the resources, information and support they require. Navigators help students during the application process, provide funding advising and facilitate supportive referrals to resources.

The First Nations Student engagement coordinator creates welcoming spaces and community-building opportunities. Their programming and initiatives support Indigenous student well-being and belonging outside of the classroom.

### Elders on Campus

*We are Elders. Awakenning the wisdom.*

We are honoured to have Elders contributing to the YukonU community in many ways, from co-instructing workshops and classes to hosting events and fostering connections with knowledge keepers. Based in the *Samay Thia* Harry Allen Lounge, the Elders on Campus organize regular activities, including weekly beading sessions, campfire gatherings and various cultural events.

### Samay Thia Harry Allen Lounge

Located in the heart of the Ayamdigut Campus, this is a gathering space for students, faculty, staff and community members to study, relax and connect with Elders or participate in activities.

Harry Allen was a passionate leader and chief of Champagne and Aishihik First Nations. He played a key role in the 1973 Yukon Settlement negotiations, and later served as chair of the Council for Yukon Indians and vice chair of the Assembly of First Nations. In 1995, he was appointed the first grand chief of the Council of Yukon First Nations, where his leadership and efforts to unite Yukon First Nations left a lasting legacy.

### Roddy's Camp

Join us every week at Roddy's Camp for a warm and welcoming gathering, where you can enjoy tea with freshly baked bannock and listen to engaging stories shared by Elders. It's a wonderful opportunity to connect and learn in community.

Roddy Blackjack was an influential leader who played a key role in land claim negotiations. As former chief of Little Salmon-Carmacks First Nation, Roddy was a tireless advocate for his people and culture. He served as an executive Elder for the Council of Yukon First Nations and also served as an Elder-in-residence at what was then Yukon College. His legacy as a key architect of the Yukon Land Claims Agreement continues to shape Indigenous governance and land stewardship in the territory to this day.

## AYAMDIGUT CAMPUS AMENITIES

### Campus housing

On-campus student and family housing provides easy access to classes, facilities and support services in a safe, close-knit environment. With four buildings, housing includes basic furnishings, utilities and campus Wi-Fi.

- Units: 92 dorm and apartment-style units for 112 students
- Term fee range: \$2,100–2,500 (individual) and \$4,800–5,800 (family)

### Athletics and recreation

Our fully equipped fitness centre features cardio machines, free weights, strength training equipment, yoga mats and more. The gymnasium is open for a variety of activities, including basketball, soccer, badminton, fitness classes and other sports.

### Campus Store

The Campus Store is your one-stop shop for everything from textbooks and course materials to snacks and coffee. Stop by to stock up on YukonU gear and many of your student essentials.

### Kinnikinnick Kaff

Choose from a selection of fresh, healthy and flavourful food prepared daily by our Culinary Arts students. Whether you're looking to eat in or take out, you'll find an array of delicious options, including freshly baked goods, crisp salads, hearty sandwiches, comforting soups, and a variety of hot and cold beverages. The Kaff is the perfect spot to refuel and recharge during your day.

### Parking and transportation

You can access the campus by public transit, foot, bike or vehicle. Whitehorse Transit provides hourly bus service. Bus passes are available for purchase through the Campus Store. Free student and accessible parking, as well as bike racks and storage, are available.

### Outdoor activities

Nestled within 97 hectares of forest and wetland, you can explore numerous local trails or enjoy disc golf, all just steps from campus.

## STUDENT SUCCESS

We are here to support your academic success. Our student success team is ready to welcome and support you with wrap-around academic and wellness supports.

### Counselling services

As a registered student, you are eligible for and encouraged to reach out at any time for counselling. Our trained and experienced counsellors are dedicated to helping you navigate the demands of student life, promoting overall wellness, and developing your essential skills for lifelong success.

### Library / Innovation Commons

Access books, academic articles and AV equipment, and get help to find and use reliable information for class assignments and research projects. We offer study rooms for individual and group study, a mezzanine, computer lab, and flexible areas for student learning and socializing.

### Information Technology services

Need help with email, printing or almost anything tech-related? Our Information Technology (IT) team is here to help. Whether you're setting up your student email, troubleshooting devices or navigating campus systems, we're here to support you every step of the way. Visit us in the Innovation Commons, Ayamdigut Campus (Whitehorse).

### Student engagement

Our student engagement coordinators create opportunities and social events outside of the classroom to support a thriving student experience at each Yukon University campus. They are the University's first point of contact with the Student Union. If you are looking to form a student group or club, the student engagement coordinators can support you.

### Tutoring services

Our dedicated tutors offer personalized support in Math and Writing for students across all programs. Whether you're tackling a math problem or refining an essay, our tutors are here help!

### Learning strategies

Our Learning strategist can help you build the skills and strategies needed for academic success. Whether it's improving your note-taking skills, managing your time effectively, or preparing for exams, our Learning strategist provides personalized guidance to support your learning goals.

## Funding advising, awards and bursaries

We can meet with you and your family (if you wish) to help connect you with and navigate a variety of internal and external funding opportunities to support your education. Whether it's First Nations funding, government funding, merit-based awards or needs-based bursaries, we are here to help you along the way.

## Accessibility services

If you have a visible or invisible disability, mental health, temporary or chronic health condition, you're encouraged to contact our Accessibility Services. Our advisor is available to discuss individual needs and identify the appropriate academic accommodations to support your academic success and personal growth. Your personal medical information is kept strictly confidential.

## Student advising

Whether you're interested in becoming a student or are a current student, we are here to answer your questions. At any time, you can reach out to a First Nations student navigator or a University navigator with questions about programs, admissions and more. We make sure you receive referrals to the people and services you need—from assistance with academic matters to non-academic matters such as housing, cultural adjustment and other essential services.

## OUR NEIGHBOURS

### Yukon Arts Centre

The Yukon Arts Centre sparks imagination and curiosity through the transformative power of the arts. Experience programming encompassing visual arts, performing arts, presentations, training, residencies and community outreach, all aimed at nurturing an inclusive, dynamic and creative environment in the North.

[Yukonartscentre.com](http://Yukonartscentre.com)

### Yukon Archives

Discover Yukon's documentary heritage (dating back to 1896) through letters, diaries, photographs, films, maps and more at Yukon Archives. With subjects including education, elections, wildlife, transportation, legislation and land, they also offer a non-circulating library, Wi-Fi and reproduction services.

[Yukon.ca/en/arts-and-culture/archives](http://Yukon.ca/en/arts-and-culture/archives)

### Yukon Native Language Centre

Operated by the Council of Yukon First Nations, the Yukon Native Language Centre supports language revitalization efforts. They provide comprehensive training, capacity-building programs, technical expertise and advocacy to strengthen language preservation.

[Ynlc.ca](http://Ynlc.ca)

### Nakwaye Ku Daycare

This not-for-profit daycare centre offers a bright, open space that promotes learning through play. The daycare is licensed for 36 children aged 18 months to pre-kindergarten. View this and other early learning and child care options:

---

## STUDENT ORGANIZATIONS

### Student Union

The Student Union represents and advocates for all credit students by providing leadership, representation and advocacy through an elected executive council. The YukonU Student Union is established under the amended Yukon University Act and incorporated under the Societies Act. All students enrolled in credit-based programming pay a student union fee.

### YukonU student clubs

Any Yukon University student can start a recognized student club! Student clubs offer opportunities for you to gather with other student peers socially and recreationally outside of the classroom. Clubs can be organized around any interest you have: sports, hobbies, music, identity or social issues. Not sure where to start? Connect with Student Engagement. They will make sure you have the tools to get started.

## Dual credit

Yukon high school students can take up to two university courses per year, tuition free. These courses count toward your high school graduation requirements. Dual credits can also be put towards a Yukon University program or transferred to other post-secondary institutions in Canada.

[YukonU.ca/programs/dual-credit](https://YukonU.ca/programs/dual-credit)

## HOW TO APPLY

We are excited to learn more about you and your interests. Reach out now to speak to a University navigator or a First Nations student navigator. We are here to support you throughout your application and beyond.

We offer some of the most competitive tuition and fee rates in Canada. Tuition fees are reviewed annually. Please refer to the website for current fees.

2025–26 domestic tuition fees are:

### Credit courses for certificate, diploma and degree programs

- \$149/credit
- \$447/three-credit course

### University Access Pathways courses

- \$92/credit
- \$282/three-credit course

### Full-time vocational, Culinary Arts

- \$2,050/term

### Pre-apprenticeship trades certificates

- \$3,200/program

### Graduate-level courses

- \$500/credit
