COURSE DESCRIPTION

This course provides a general introduction to the field of archaeology as a subdiscipline of anthropology. The concepts, theories and methods of the discipline will be examined, and their application to the study of human pre-history will be discussed. Students will develop an appreciation of how archaeology contributes to the understanding of the history of human societies and basic archaeological laboratory skills

COURSE REQUIREMENTS

Prerequisite(s): None

EQUIVALENCY OR TRANSFERABILITY

Find course transfer at <https://www.bctransferguide.ca/>

LEARNING OUTCOMES

Upon successful completion of the course, students will be able to:

- Gain an understanding of the basic theories and methods of field archaeology, including survey and excavation, measurement and sampling, stratigraphy and dating, and record keeping
- Have a basic understanding of the models developed in archaeology that may be applied to interpreting the meaning of spatial patterns within and between archaeological sites
- Develop practical skills in archaeological laboratory work, including metric and wear analysis, and floral, faunal, and sediment analysis
- Gain practical skills in the presentation of archaeological data through tables, graphs, statistical summaries, photographs, drawings, and textual descriptions
- Understand the ethical and legal context of the practice of archaeology in Canada and the Yukon.

Delivery format

This course is delivered on campus, face-to-face.

Weekly breakdown of instructional hours

Students will have two hours of lecture and one hour of lab per week. It is expected that students will spend an additional 3-5 hours outside of class on readings and assignments.

EVALUATION

This is a synchronous face-to-face course. The course outline and other relevant materials, including grades, will be posted for viewing or downloading on Moodle. When possible, lecture slides will be posted on Moodle prior to the lecture, but these are considered to be supplementary material and will not provide all material covered in lecture. If the posted notes are inconsistent with information provided in lecture, the information presented in lecture takes precedence. Do not rely on the posted notes alone. Please contact me if you are unable to access these materials.

Active Participation	10%
Midterm	20%
Lab Assignments x 5	25%
Lab Exam	20%
Final Exam (not cumulative)	25%
Total	100%

Engagement and Participation

Students are expected to attend all classes and actively participate in class discussions and projects.

Midterm

There is one midterm that consists of multiple choice and short answer questions. The midterm follows the textbook and lectures. A study guide will be provided five days prior to the midterm.

Lab Assignments

There are five lab assignments. These will focus on mapping, zooarchaeology, lithics, pottery and social organization. Students are expected to hand in the lab assignments biweekly, at the end of each topic section. Students are required to attend all labs to complete their assignments.

Lab Exam

There is one lab exam that will involve a timed hands-on examination of archaeological material with associated short answer questions.

Final Exam

The final exam is not cumulative. It will consist of multiple choice and short answer questions. A study guide will be provided five days prior to the final.
