COURSE DESCRIPTION

The Canadian economy rests on a structure of legal institutions derived from both common-law and civil-law roots. This course is designed to give an introduction to - and an overview of - the major areas of law generally encountered in business and commercial law in the common-law provinces and territories. Additionally, it offers an opportunity to consider underlying considerations of social policy - the reasons behind the rules made by both by the courts and by legislative bodies.

LEARNING OUTCOMES

Upon successful completion of the course, students will be able to describe the Canadian legal system, will be able to identify the basic principles of the law of contracts, torts, agency, and property, and will be able to identify the various forms of business organization available in Canada.

The study of law as a subject places different demands on the student than would otherwise be encountered in the more traditional college course. It is essential that the

student be able to communicate clearly and effectively when dealing with factual situations in which there is not always a clearly right or wrong answer.

COURSE FORMAT

The course will be taught primarily through formal lecture, but will also involve question and answer, and group discussion. Students will meet the objectives of the course by reading the text, reading assigned case law, attending classes and through discussing issues, and participating in class.

ASSESSMENTS:

Attendance & Participation

Class participation and attendance will account for 10% of the final mark.

It is important to attend the class sessions having read the assigned sections of the text in advance.

Assignments

Additionally, students will be assigned case law or Yukon statutes to read. That material will be sourced from publicly available web sites and will be illustrative of concepts and principles developed from the text. **Students will be responsible for obtaining and reading the case law or Yukon statutes.**

Tests

Students will be regularly given quizzes in class based on the assigned readings (text, case law and statutes). Quizzes will account for 25% of the final mark.

There will also be a take home mid-term examination and a take home final examination. Both will be assigned in class

EVALUATION:

Quizzes (in Class)	25%

ACADEMIC AND STUDENT CONDUCT

Information on academic standing and student rights and responsibilities can be found in the current Academic Regulations that are posted on the Student Services/ Admissions & Registration web page.

PLAGIARISM

Plagiarism is a serious academic offence. Plagiarism occurs when a student submits work for credit that includes the words, ideas, or data of others, without citing the source from which the material is taken. Plagiarism can be the deliberate use of a whole piece of work, but more frequently it occurs when students fail to acknowledge and document sources from which they have taken material according to an accepted manuscript style (e.g., APA, CSE, MLA, etc.). Students may use sources which are public domain or licensed under Creative Commons; however, academic documentation standards must still be followed. Except with explicit permission of the instructor, resubmitting work which has previously received credit is also considered plagiarism. Students who plagiarize material for assignments will receive a mark of zero (F) on the assignment and may fail the course. Plagiarism may also result in dismissal from a program of study or the College.
