COURSE DESCRIPTION

This project underscores the importance of teamwork in small groups while working on real, community-based projects.

By synthesizing the hard skills learned in individual program courses, you will research, plan, and carry out a multimedia communications strategy for a local organization. In addition, you will be required to demonstrate the necessary soft skills of adaptability, leadership, negotiation, motivation, and professionalism needed to work in the industry. You will use all these skills to develop a comprehensive communications strategy that may include web, print, video, and audio components. This culminating project will inevitably improve your employability in the industry by offering you a communications experience that is directly relevant to the industry.

COURSE REQUIREMENTS

Prerequisite(s): admission to the Multimedia Communications program.

Successful completion of all Fall Multimedia Communications (MMC) course and concurrent enrolment in all Winter MMC courses.

EQUIVALENCY OR TRANSFERABILITY

Receiving institutions determine course transferability. Find further information at:

<https://www.yukonu.ca/admissions/transfer-credit>

LEARNING OUTCOMES

Upon successful completion of the course, students will be able to:

- Manage a multimedia communication project.
- Meet project milestones individually and within a team environment.
- Interact with clients in a professional manner.
- Develop and deploy an effective communication strategy for the client.
- Critique other team projects and receive feedback in a professional manner.

COURSE FORMAT

Weekly breakdown of instructional hours

Each week will require at least 3 hours of dedicated in-class course time. Additional time will be required for assignments and other activities.

The Capstone project develops differently depending on each groups' client and deliverables and time commitments and workload will fluctuate throughout the project.

Students should be prepared to dedicate significant time to this project outside of regular class time.

Delivery format

This course will be delivered through face-to-face classes at Ayamdigut campus.

Face-to-face classes are structured to cover the course materials through lectures, examples and discussions.

This course is an experiential learning opportunity where groups will be working with real clients who will be determining the project scope. Students will be creating several multimedia assets for a client based on a design brief. The instructor will serve as a mentor to the teams and will support the design process and creation of project deliverables.

A detailed description of activities, in-class and online delivery schedules and associated time requirements will be presented in the first class.

www.yukonu.ca

The multimedia lab will be available and reserved for students in this course in the allotted course times (Friday 1-4pm) for the duration of the semester. The lab will also be available at other times for completing assignments.

It is expected that this course will require additional time each week of homework and reading. It is important to note that the time required will vary by individual.
