### COURSE DESCRIPTION

This course introduces students to the profession of social work, its theory and practice. Students examine the philosophy and practice of social work in Canada, both in First Nations and non-First Nations communities.

### DETAILED COURSE DESCRIPTION

Students will be provided with an overview of the historical, ideological, and theoretical perspectives that have shaped and continue to inform the models and means of contemporary Canadian social work practice.

Specific values and principles are at the very core of what social workers do and why we do it; these are expressed through professional conduct that is guided by the Social Work Code of Ethics. Throughout this course students will be asked to critically reflect upon and to compare their own values and perspectives with those of the social work profession, within the context of enhancing social welfare for diverse populations. Students will also learn about the specific issues and challenges for social workers practicing in Yukon. This course focuses on the contributions of research to effective social work practice and policy. Emphasis is placed on understanding and critically assessing social work research, and on how to employ a variety of quantitative, qualitative, and community-based research methodologies to advance social work knowledge and practice.

### COURSE REQUIREMENTS

Prerequisite(s): ENGL 100 (3 credits) and 6 credits of university studies

### **ACADEMIC INTEGRITY**

Students are expected to contribute toward a positive and supportive environment and are required to conduct themselves in a responsible manner. Academic misconduct includes all forms of academic dishonesty such as cheating, plagiarism, fabrication, fraud, deceit, using the work of others without their permission, aiding other students in committing academic offences, misrepresenting academic assignments prepared by others as one's own, or any other forms of academic dishonesty including falsification of any information on any Yukon University document.

After 2 missed classes, each missed class will result in a 5% reduction in your mark, or the submission of an additional assignment based on that week's content.

### **PLAGIARISM**

Plagiarism is a serious academic offence. Plagiarism occurs when a student submits work for credit that includes the words, ideas, or data of others, without citing the source from which the material is taken. Plagiarism can be the deliberate use of a whole piece of work, but more frequently it occurs when students fail to acknowledge and document sources from which they have taken material according to an accepted manuscript style (e.g., APA, CSE, MLA, etc.). Students may use sources which are public domain or licensed under Creative Commons; however, academic documentation standards must still be followed. Except with explicit permission of the instructor, resubmitting work which has previously received credit is also considered plagiarism. Students who plagiarize material for assignments will receive a mark of zero (F) on the assignment and may fail the course. Plagiarism may also result in dismissal from a program of study or the University.
