

ACADEMIC AND SKILL DEVELOPMENT

College Access Pathways

Upgrading courses offered in math, sciences, English, computers, etc, that provide the pre-requisites for programs at Yukon College and other institutions.

English as a Second Language (ESL)

English language training for non-native speakers of English.

ACADEMIC AND CAREER

Aviation Management DIPLOMA

Two-year diploma program that aims to provide students with essential business skills and a commercial pilot license.

Business Administration

CERTIFICATE, DIPLOMA, BACHELOR'S DEGREE
Certificate or diploma programs preparing students for administrative management careers in business and government.

Culinary Arts CERTIFICATE (F)

Eight-month program designed to meet the need for qualified cooks in the hospitality industry. The next intake is Fall (November start), 2021.

Early Learning and Child Care CERTIFICATE, DIPLOMA

Flexible programs providing opportunities for students to develop the knowledge, skills and abilities necessary to provide and evaluate quality early childhood education for young children and families. No new intakes in winter semesters.

Earth Sciences DIPLOMA, TRANSFERRABLE (F)

Two-year diploma program that focuses on building hands-on skills and understanding of Earth's mineral, soil, and water resources. The program is informed by strong industry support and connections. The diploma provides 1st and 2nd-year courses for a B.Sc. in geoscience/geology at most Canadian universities, with an established block transfer to a B.Sc. in Geoscience at Vancouver Island University.

Education – Yukon Native Teacher

BACHELOR'S DEGREE
Four-year degree program emphasizing elementary education, Yukon First Nations and northern content.

General Studies CERTIFICATE, DIPLOMA

Flexible programs that integrate general knowledge and intellectual skills with specific occupational or professional skills.

Heritage and Culture CERTIFICATE, TRANSFERABLE (F)

Innovative program focusing on Yukon First Nations heritage and culture, leading to degree work in the social sciences and humanities as well as careers in heritage and culture interpretation, management and preservation.

Indigenous Governance BACHELOR'S DEGREE

Three-year bachelor degree program designed to provide students with the values, knowledge, and skills to work collaboratively within the unique Governance structures of the North. Students analyze the evolution of Indigenous self-determination and self-government in Canada and internationally, with a focus on current and past legislation and policy.

Liberal Arts CERTIFICATE, DIPLOMA, TRANSFERABLE

Essential programs in the social sciences and humanities that build transferrable skills for future career and educational pursuits, foster social responsibility and cultural sensitivity, and instill independent reasoning and critical thinking skills.

ACADEMIC AND CAREER CON'T

Multimedia Communication CERTIFICATE

Diverse program combining ingenuity and technology to teach effective communication strategies through web, audio, video and print-based media.

Northern Environmental and Conservation Sciences

DIPLOMA, BACHELOR'S DEGREE (F)

Degree program offering a northern perspective on issues such as wildlife conservation, land use and resource management under modern treaties, changes in water quantity and quality, climate change, and energy needs.

Northern First Nations Studies

DIPLOMA, TRANSFERABLE

Multidisciplinary program raising awareness of the cultures, history, accomplishments, and political and national concerns of First Nations and other indigenous peoples of the Yukon, the Canadian North, and the Circumpolar World.

Northern Justice and Criminology

CERTIFICATE, DIPLOMA, TRANSFERABLE

Multidisciplinary programs in justice and criminology in a northern context, leading to degree programs or entry-level employment in criminology and fields related to criminal justice. The next intake is fall, 2021.

Northern Outdoor and Environmental Studies

DIPLOMA, TRANSFERABLE

Multidisciplinary program offering options for exploring contemporary northern environmental issues, outdoor activities, and human/environment relationships. Customizable.

Northern Science DIPLOMA, TRANSFERABLE (F)

Diploma program delivering a strong northern science focus. Prepares students for scientific or technical work in a northern environment, or for transfer to the B.Sc. in Northern Environmental and Conservation Sciences degree program.

Northern Studies DIPLOMA, TRANSFERABLE

Flexible, self-directed multidisciplinary diploma program focusing on northern and circumpolar issues.

Office Administration CERTIFICATE (F)

Nine-month full-time program providing students with the knowledge and skills required to enter the workforce as accounting clerks, administrative assistants, and general office assistants.

Renewable Resources Management

DIPLOMA, TRANSFERABLE (F)

Two-year diploma program with field and laboratory components combined with wide-ranging classroom topics in biology, environmental science, first nation culture and history, aquaculture, land and renewable resource management, all with a focus on sustainability in the north. Intake is every two years. The next intake is fall, 2021.

Science CERTIFICATE, TRANSFERABLE (F)

Courses are available in mathematics and in the earth, life and physical sciences. Transfers to the Northern Science diploma, Environmental and Conservation Sciences degree or into the second year of a Bachelor of Science program at another Canadian university.

Visual Arts CERTIFICATE, TRANSFERABLE (F)

Foundation-year fine arts education offered through the School of Visual Arts (Yukon SOVA) in Dawson City. Transfer to a visual arts degree program at one of Canada's major art schools.

TRADES

Heavy Equipment Technician Pre-Apprenticeship

CERTIFICATE, DIPLOMA, TRANSFERABLE (F)

Eighteen-week program providing students with theoretical trade knowledge and practical skill development to a level that will enable them to enter the trade as a capable and knowledgeable apprentices and entry-level workers. Diploma option available, which includes two fifteen-week semesters in addition to the eighteen-week program and covers all technical training for a Red Seal in Heavy Equipment Technician (Off-Road). The next intake is fall, 2021 (tentative).

(F) FALL TERM START ONLY
