Graduation Requirements and Yukon First Nations Core Competency

The Bachelor of Social Work degree is granted by the University of Regina, but all the courses are delivered by Yukon University by Yukon University faculty.

The Bachelor of Social Work is awarded for the completion of the equivalent of four years of university level study (120 credits) including 60 credits of required and elective courses in Social Work (SW) and 60 credits General University Studies (GUS). These GUS courses can be taken at Yukon University, or if completed elsewhere, University of Regina may grant transfer credit.

To graduate, students must:

- complete all academic requirements as required by the University of Regina for the Yukon University BSW degree
- obtain a minimum 65% cumulative GPA in GUS courses and a minimum 70 % GPA in SW courses

Yukon First Nations Core Competency

Yukon University recognizes that a greater understanding and awareness of Yukon First Nations history, culture and journey towards self-determination will help to build positive relationships among all Yukon citizens. As a result, you will be required to achieve core competency in knowledge of Yukon First Nations.

Students in the BSW program acquire knowledge related to the First Nation Core Competencies through many courses including the following: SW 389, SW 352 and History 140.

Recommended Sequencing Plan: Full Time

Part-time and full-time studies are possible in the BSW program. The sample sequence below depicts one option for a full-time student who enters the program with all their academic prerequisites (English 100 L, English 100 Level or higher, Social Work 200 and 7 additional GUS courses). If a student has been granted more transfer credit (ie. for a completed degree) their course load will be reduced.

Many students prefer to complete their degree over a longer period of time than that shown in this sample.

Before beginning the program we encourage you to meet with the BSW Program Coordinator to develop a multi-year plan for degree completion that is tailored for you. It is preferable to have your transfer credit for previously completed university courses determined prior to developing a degree completion plan.
