Recommended Sequencing Plan

Below is a sample sequence of courses for your degree. If you follow this plan, you should be able to graduate in four years, provided you complete five courses per term. This is just one example of how you could complete your major and degree requirements; you may find that a different sequence works as well.

Part-time completion of the 120-credit Education program is also possible.

Student Responsibility

You are responsible for the completeness and accuracy of your registration and for determining the requirements of your program. Always read course descriptions before you register to determine if you have the necessary prerequisites and pay attention to notes on mutually exclusive and cross-listed courses (pairs of courses in which credit will be awarded for only one).

It is critical for YNTEP students to be aware that they are enrolled at both YukonU and the University of Regina. Decisions such as course withdrawal must be communicated by the student to both institutions.
